3. **Regulations of the Spanish Federation.** Players with ESP flag in FIDE should have licence of the spanish federation in force so as to play the tournament, and foreign players should have a FIDE code before the start of the tournament. All the participants have the obligation to verify their personal data, ELO and code, among other things. All players must be registered in [www.gefe.net](http://www.gefe.net).

4. **Play speed and pairings.** Play speed is 90 minutes plus 30 seconds per move (no time control). Pairings and tie-breaks are made with the computer program “Vega”. Those will be published after finishing each round both in the informative boards and the official page of the tournament. Pairings will be considered official after 10:00 am, and in double-round days, an hour after their publication. Draws (*Sofia rule*) – Only the arbiter can decide if a game ends in a draw before the move 30th.

5. **Forfeits.** 60 minutes margin for the forfeit, counting from the official time of the start of the games indicated above. The player that does not play the first round could be substituted by another one, and will be eliminated from the tournament. Players that lose a game by forfeit and not inform about it to the organization, will be disqualified too. Two forfeits, justified or not, imply the elimination from the tournament.

6. **Byes.** Maximum of 3 byes (except for invited players) can be requested before the start of the tournament, always in writing and 48 hours in advance. They are possible for the firsts 6 rounds of the tournament. A player with a bye won't be paired in that/those round/s and will obtain half a point. In all the requests the final decision will be taken by the Chief Arbiter, based on the course of the competition, and taking into consideration the number of points and/or the existence of forfeits.
7. **Tie-break.** The tie-breaks applicable are as follows (not played games count as a virtual opponent)
  - a) Bucholz Cut 1
  - b) Median-Bucholz
  - c) Average rating of opposition (ARO)
  - d) The greater number of wins
  - e) Drawing lots
8. **Annotation of the games.** Players must give the original scoresheet signed and with the correct result to the arbiter after finishing the game. Moves should be annotated as clearly and legibly as possible, with algebraic notation. **It is recalled that with this rhythm of play players cannot stop annotating.**
9. **Electronic devices.** With the exception of an express authorisation from the arbiter, **in the playing hall, during the games, it is prohibited to use or carry on any device of communication, mobile, tablet, etcetera.** It is allowed to have those devices in the bag of the players, but always if the device in question is completely off. That bag should be placed where the arbiter indicates, and players cannot use that bag without the permission of the arbiter. The infringement of this rule implies the loss of the game or the sanction the arbiter estimates. Neither the organization, nor the arbiters, are responsible of the custody of the electronic devices.
10. **Validity for ELO.** The tournament is valid for tittle norms and ELO FIDE, FEDA and FADA, according to the regulation in force.
11. It is not permitted to analyse / reproduce the games in the playing hall. In addition, players can not leave the playing hall during a game without the arbiter's authorisation. They will also need an authorisation if they want to leave the board in their turn to play.
12. Prizes are not shared, and are assigned rigorously in function of the classification order, including tie-breaks. Being the order: first general classification, second locals, and third ELO stretches. If a player opts for two prizes, then he or she will receive the one with the higher amount. In case it is similar, then the order is: first general clasification, second locals and third ELO stretches. For ELO stretches prices (for example, the Under 2100) the ELO taken into consideration will be the higher of the player in the lists FIDE or FADA. Only if the player does not have ranking in those lists, the ELO of their country federation will be considered. In any case, the ELO that will count is the higher in force at the time of the start of the tournament. For the players "out of list", the ELO included will be the last, based on the current list. **To all**

the prizes the retentions established by the legislation in force will be applicated (15% for spanish players and 25% for foreign players).
